CEN 5120 Expert Systems

Homework 1

Due: January 28, 2004 (Wednesday)

Problem:
Write a CLIPS program that will assert and print your name and address when you assert your first name with a top-level command. For example, if you enter (assert (name Peter)), the program could print out

Peter Jones,
1000 Main St.
Houston, TX 77058

Note: You need to turn in the hard copies of your programs.
