Dear Mo Sha,

Congratulations! You have been identified as a 2018 "Career Champion," someone who has empowered students to find their purpose, identify and reach their career goals, prepare for and solidify future professional plans or gain full time employment.

Examples of Career Champions include those who have shared expertise regarding technical or professional skills needed in the workplace, internship advice, networking assistance, interviewing guidance, industry tips and building relationships to enhance student engagement in the workplace.

To highlight part of the criteria that contributed to your selection as one of our Career Champions, we have included some of your nominator(s) comments below.

"As my PhD advisor, Professor Sha keeps encouraging his students to think analytically on research projects. He always gives students the opportunity to present in the class or to the public. He even helps to make future career plans for his students. I appreciate his encouragement and inspiration to me."

The Fleishman Center for Career and Professional Development, on behalf of Binghamton University undergraduate and graduate students, is grateful for all that you have done and we thank you for your continued support in championing our students' success.

Sincerely,

The Fleishman Center for Career
and Professional Development
