

Future-Ready Skills Pilot Overview

The Future-Ready Skills Pilot is a global pilot that provides educational institutions and educational non-profits (Institutions) with comprehensive resources to enable innovative education. This pilot provides access to Microsoft-developed and authorized curriculum so Institutions can more easily offer in-demand technology content to students and provide opportunities for students to earn industry-recognized certifications.

Goals of Institutional Skilling Program:

Institutional Offer:

Microsoft will provide...

- Microsoft Official Curriculum (MOC) materials for Azure Fundamentals for pilot
- Self-paced training for educators on Azure Fundamentals in preparation for exam
- Train-the-trainer with Microsoft technical trainers on how to deliver MOC
- Vouchers for practice exams – educator and their students for pilot
- Vouchers for AZ900 exams – educator and their students for pilot
- Ongoing support from Microsoft through the pilot delivery of the course materials

Educators will...

- Participate in a kick-off session, feedback sessions, and class observations
- Attend train-the-trainer session and provide feedback on the experience
- Educator will take and pass AZ900 exam
- Provide feedback on course program guide, course materials, operational process of pilot
- Deliver one full implementation of AZ900 content with certification exam as capstone
- Facilitate the collection of feedback from students on learning experience for Microsoft

Pilot Customer Process Flow
