

New Course Proposal Guidelines

The following serve as guidelines when reviewing for approval of a New Course proposal. Please follow each step to assure the completion of this form.

Cover Page (titled): Florida International University Curriculum Committee Proposal for a New Course

1. Visit the Faculty Senate Website: Make sure that the cover page/curricular forms are the **most updated** on the Faculty Senate website under “**Curriculum Other Forms.**”
2. Note on the form that the effective date is specified by the Faculty Senate – University Curriculum Calendar faculty senate.fiu.edu (e.g., bulletin 1-3 is the following fall, bulletin 4-6 is the Spring of the next academic year)
3. Common Errors /Recommendations in completing the Form:
 - Select a grading method (Graded or Pass/Fail)
 - The course description must be limited to 200 characters (including spaces and symbols)
 - Course objectives may be presented as “see attached syllabus” instead of typing in the box.
4. All supporting documents should be included (e.g., email to assessment office, email(s) communication with other departments on duplication/overlap with existing FIU courses)
 - Question 13: Does this proposed change impact the assessment process of a program or certificate? This question refers to the student learning outcomes of a degree program and the specific courses used to gather student artifacts to assess critical thinking, communication, content knowledge, etc. Typically, courses that reflect culminating experiences of a degree are identified in the assessment plan.
5. Insert the justification in front of the syllabi, which clearly and accurately describes the rationale for the course.

Syllabus

- 1) Required Syllabus Components: (Generic Syllabus not specific to any semester)
 - a) Course Prefix, number, and full name as stipulated on the new course form.
 - b) Prerequisites and co-requisites (if any are included on the New Course form).
 - c) Course Description: The description from the New Course form must be reflected (but does not have to be verbatim) . A detailed description is acceptable to provide students with a more specific course overview.
 - d) Objectives/Learning Outcomes: Include student learning outcomes and ensure that they are written using measurable verbs (e.g., [Bloom’s Taxonomy](#)). Note that the Faculty Senate review Curriculum process includes determining the course outcomes reflecting the higher-level learning of a college course (lower division, upper division, graduate).
 - e) Required purchases, including texts (ISBN), lab supplies, artistic supplies, and professional and ancillary items. If there is no required text, a preliminary list of readings should be included to reflect the depth of learning expected of students. Texts/readings should be from valid sources and timely.
 - f) Grading standards to be used in calculating final grades.
 - g) A tentative outline that includes essential topics in a weekly format along with anticipated week due dates: assignments, performances, artistic submissions, and examinations.
 - h) Performance measures for evaluation in awarding final grades. The description of the significant assignments should reflect appropriate rigor for the course level (lower division, upper division, graduate).
 - i) Any instructor and department policies that may impact a student's enrollment or final grade.
