Approved the "career readiness" course.

I asked CM chair today and he said it's approved and he will send me the approval via email. Still waiting for that to arrive.

-jason.

Thanks Jason.

I am getting some questions answered regarding the ability to take multiple sections of CIS4940 in the same semester and will submit the update shortly.

Subject: Re: CCC B4 meeting update

Hi Jason,

1. The syllabi attached to the following proposals have been revised correctly with "Performance evaluation with weights" and "Grading scale".

CDA4625 Intro to Mobile Robotics
COT4431 Applied Parallel Comp
CGS3095 Technology in the Global Arena
CEN4072 Fund SW Testing
CAP4830 Modeling & Simulations
IDC2002 AI for All

The DS:BS flowchart has been revised with a footnote for STA2023 alternatives.

Please approve all the above seven proposals on Coursedog.

2. After Trevor makes a minor update to the "CIS Career Readiness" syllabus file,
approve this course.

3. The "CIS IT Project Management" (new course proposal) is pending for the approval(email) memo from Construction Management. Can you send a follow-up email to the Jose Faria (we need it by tomorrow)?

Let me know as soon as you receive it so that I can update the proposal and after your approval, CCC can review it on Thu at 11am (last CCC meeting for Bulletin#4).

Thanks

Hi All,

Yesterday the entire CCC review was devoted only for KFSCIS proposals.
The outcome of the meeting is listed below:

Approved six proposals:

- COP 3465 Data Struct Fundamentals -- Prereq change for BS-DS
- COP 4555 Prin Of Prog Lang -- Prereq change for BS-DS
- CAP 2757 Intro to Data Science -- Prereq change for BS-DS
- CIS Cloud Deployment and Operations -- New course
- CIS Cloud DevOps -- New course
- TELECOM:MS Termination of the program

Following six proposals are required to include

- Grading scheme with weights for each deliverables towards the final grade
- Grading scale

(similar to page 4 of https://www4.cis.fiu.edu/courses/Syllabi/COP_2047.pdf)

- CDA 4625 Intro to Mobile Robotics -- Prereq change for BS-DS
- COT 4431 Applied Parallel Comp -- Prereq change for BS-DS
- CGS 3095 Technology in the Global Arena -- Prereq change for BS-DS
- CEN 4072 Fund SW Testing -- Prereq change for BS-DS
- CAP 4830 Modeling & Simulations -- Prereq change for BS-DS --
- Greg
- CIS Career Readiness -- New Course

In CIS Career Readiness proposal, the last line of the attached syllabus

("Assignments, grading scale, and grade distribution will vary by industry partner") raised several concerns

on how the course outcomes will be realized through industry partners.

I will provide details in person.

IDC 2002 AI for All -- UCC Designation

Attached syllabus needs to have corrected page header and include Grading scale.

CIS IT Project Management -- New course (created to meet ABET requirement)

Construction Management offers similar course with the same set of topics

and would like to get their consent for this proposal.

The topics need to be updated with IT specific keywords to differentiate the need

for our own version for this course.

DS:BS -- Program change (Stat courses)
Minor update on the flowchart (a footnote for the STA 2023 or equivalent course) is needed.

IT:BS -- Program change (DevOps and Software majors)
Deferred for the next meeting soon (for B4).

Plan of action:

Greg: revise syllabi files for CDA 4625, COT 4431, CGS 3095, CEN 4072, CAP 4830

Trevor: revise CIS Career Readiness syllabus for clarity on course implementation

Leonardo: revise IDC 2002 syllabus

Pat: Revise CIS IT Project Management syllabus topics

Prabu: Coordinate with Construction Management and get their approval for IT Project Management

Update DS:BS flowchart

Make sure all the above revisions of nine proposals approved within a week (by 1/27/25).

Regards
--Prabu
