Hi Jason,
The CM department has no objections to this course.
Kindest regards
Jose

Subject: Re: IT Project Management - New course proposal

Good morning, Jose.

The College Curriculum Committee is meeting today at 11 to discuss course proposals for Bulletin #4. I'd appreciate if you can confirm CM's approval (simply by replying to this email) for the KFSCIS IT Project Management course so that it won't get delayed.

Many thanks!
Jason.

Subject: IT Project Management - New course proposal

Dear Jose,

I hope you had a great winter break. Happy new year!

KFSCIS is creating a new course on Information Technology (IT) Project Management. Please see the attached syllabus and course justification.

We just learned that Construction Management has an existing project management course. We'd need to seek your approval for creating this course for our IT software engineering program. I was told the college curriculum committee is meeting next week (for bulletin 4) and they'd require to have your approval before this course proposal can move forward. I understand this is such a short notice. So sorry. I didn't know that there was a project management course at CM and I don't think that IT project management has anything to do with CM project management.

In any case, I hope you'd be able to review and approve the proposal, but if you can't because of the timing, I'd fully understand.

Many thanks in advance.

Best,
Jason.
