

## School of Computing and Information Sciences

**Course Title:** Introduction to Cloud Computing

**Date:** 9/30/19

**Course Number:** CEN-4083

**Number of Credits:** 3

|   |   |
|---|---|
| <b>Subject Area:</b> Computer Systems   | <b>Subject Area Coordinator:</b> Jason Liu<br><b>email:</b> liux@cs.fiu.edu |
| <b>Catalog Description:</b><br>Topics include the concepts and principles of cloud computing and the techniques of using cloud systems and developing cloud applications. |   |
| <b>Textbook:</b> None.  |   |
| <b>References:</b>  |   |
| <b>Prerequisites Courses:</b> (CNT-4713 and (CDA-3102 or CDA-4101)) or permission of the instructor   |   |
| <b>Corequisites Courses:</b>  |   |

Type: CS Elective

Prerequisites Topics:

- Knowledge of computer organization and computer networks
- Experience in network programming

Course Outcomes:

1. Master the concepts and principles of cloud computing
2. Be familiar with the concepts and principles of virtualization
3. Master the techniques of using Infrastructure-as-a-Service, Platform-as-a-Service and big data systems
4. Master the techniques of developing, deploying, and managing cloud applications

**School of Computing and Information Sciences**  
**CEN-4083**  
**Introduction to Cloud Computing**

**Outline**

| <b>Topic</b>   | <b>Lecture Hours</b> | <b>Outcome</b> |
|--|----------------------|----------------|
| <ul style="list-style-type: none"><li>• Introduction<ul style="list-style-type: none"><li>• Background and history of cloud computing</li><li>• Cloud computing models</li></ul></li></ul>                               | 3                    | 1              |
| <ul style="list-style-type: none"><li>• Virtualization<ul style="list-style-type: none"><li>• Background and history of virtualization</li><li>• Virtual machines, virtual networks, virtual storage</li></ul></li></ul> | 3                    | 2              |
| <ul style="list-style-type: none"><li>• Infrastructure as a Service (IaaS)<ul style="list-style-type: none"><li>• IaaS system architecture</li><li>• IaaS programming</li></ul></li></ul>                                | 10                   | 3,4            |
| <ul style="list-style-type: none"><li>• Platform as a Service (PaaS)<ul style="list-style-type: none"><li>• PaaS system architecture</li><li>• PaaS programming</li></ul></li></ul>                                      | 10                   | 3,4            |
| <ul style="list-style-type: none"><li>• Big data<ul style="list-style-type: none"><li>• Big data system architecture</li><li>• Big data programming</li></ul></li></ul>  | 10                   | 3,4            |

**School of Computing and Information Sciences**  
**CEN-4083**  
**Introduction to Cloud Computing**

**Course Outcomes Emphasized in Laboratory Projects / Assignments**

|   | <b>Outcome</b>  | <b>Number of Weeks</b> |
|---|---|------------------------|
| 1 | Create a cloud virtual machine<br>Outcomes: 1,2   | 2                      |
| 2 | Manage a cloud virtual machine through both user interface and programming interface<br>Outcomes: 2,3 | 3                      |
| 3 | Create a PaaS program<br>Outcomes: 3,4  | 3                      |
| 4 | Create a big data program<br>Outcomes: 3,4  | 3                      |

**Oral and Written Communication:** No significant coverage

**Social and Ethical Implications of Computing Topics:** No significant coverage

**Theoretical Contents**

|    |   |
|----|---|
| 1. | Cloud computing models and systems architecture |
| 2. | Virtualization                                  |
| 3. | IaaS system architecture                        |
| 4. | PaaS system architecture                        |
| 5. | Big data system architecture                    |

**Problem Analysis Experiences**

|    |                                   |
|----|-----------------------------------|
| 1. | Cloud programming (3 assignments) |
|----|-----------------------------------|

**Solution Design Experiences**

|    |   |
|----|---|
| 1. | Design and implementation of a PaaS program     |
| 2. | Design and implementation of a big data program |

**School of Computing and Information Sciences**  
**CEN-4083**

**The Coverage of Knowledge Units within Computer Science Body of Knowledge<sup>1</sup>**

| <b>Knowledge Unit</b> | <b>Topic</b>        | <b>Lecture Hours</b> |
|-----------------------|---------------------|----------------------|
| AL11                  | Big data algorithms | 5                    |
|                       |                     |                      |
|                       |                     |                      |
|                       |                     |                      |
|                       |                     |                      |
|                       |                     |                      |
|                       |                     |                      |
